Landscape

Benefits

Superior's fleet of Express Blower® trucks gives us the ability to install thousands of cubic yards of material each day. We focus on efficiency, precision, and attention to detail at each site. Save huge amounts of time, free up employees, and equipment, gain more customers, and realize profits by teaming up with Superior!

Mulch in Landscaping

Beautiful landscaping relies heavily on one thing: Mulch. There are lots of benefits to mulch, including its stellar appearance! While it may seem like it's a simple thing to DIY, there are a lot of mistakes that you can make when trying to install your own mulch for landscaping. Don't worry, we'll talk you through all of those mistakes —

and, we'll even walk you through how to do it right. If it seems like a tedious task (because it is a tedious task) we'll tell you all about our convenient blow-in mulch service that can take care of it in half the time while you sip lemonade on the porch.

Benefits of Blown In Mulch:

- **Curb Appeal**, Mulch adds rich color and beautiful contrast to your garden.
- **Soil Health**, Mulch improves the health of your soil as it breaks down. Insects and microbes consume mulch over time and add the by-products back to the soil as organic matter.
- **Weather Protection**, Mulch insulates plants and protects them from more extreme temperatures like hot sun and cool winters. Mulch can extend the life of plants planted later in spring or fall that will be subjected to temperature changes.
- **Moisture Conservation**, Mulch slows water absorption and maintains moisture so that you don't have to water as often.
- **Weed Prevention**, Mulch prevents weeds from growing by blocking the sun. Make sure to spread your mulch thick enough so that the weeds cannot break through.

Blown In Mulch

How Does it Work?

Superior's mulch blowers make installing mulch a breeze! If you want the most convenient and beautiful installation experience, blow-in mulch service is the way to go.

Superior's fleet of Express Blower® trucks gives us the ability to install thousands of cubic yards of material each day. We focus on efficiency, precision, and attention to detail at each site. Save huge amounts of time by teaming up with Superior!

Why use blow-in mulch service?

Blow-In mulch service saves time and effort. Installing mulch the "old-fashioned" way is physically demanding, takes hours, and yields less professional results.

What types of landscape materials are available?

Superior installs a wide variety of materials for our landscape customers, including hardwood bark, colored mulch, pine bark, compost, decorative stone, beach sand, and more.

Save time and effort, and get the best-looking landscaping around! Call the experts at Superior Groundcover.
